

## The RFxPremier eMarketPlace

### What is It?

The RFxPremier eMarketPlace is a comprehensive on-line system for Buyers and Suppliers providing ordering and quoting capabilities across all RFxPremier Cooperative Contracts.

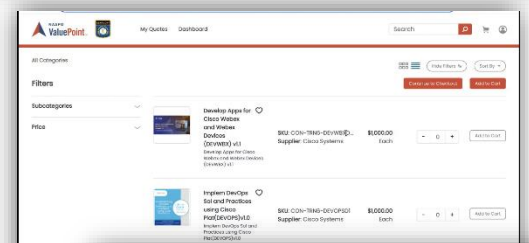

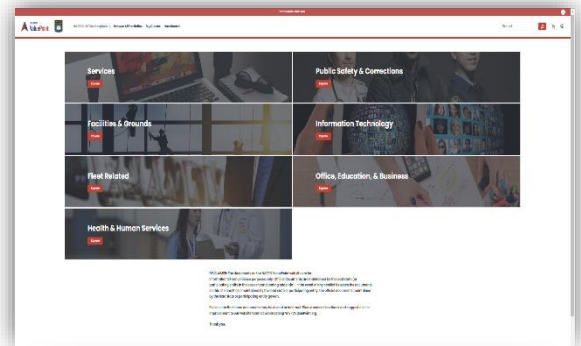

A 'one stop shop' concept available to all Buying Entities authorized to use these Contracts.

States, U.S. Territories, Higher Education Institutions, Local Governments, K-12 Public Schools, ...

### Features & Functionality

The eMarketPlace is strategically designed to enhance both the Buyer and Supplier purchasing experiences through these innovative capabilities:

- All Portfolios available for Quoting and/or Shopping
- Accessible either as a Punchout from a State's own eProcurement system or via direct login
- Restrict users to specific Portfolios and Contractors based on approved Participating Addenda (PAs)
- Secured and controlled AWS environment with Two-Factor Authentication
- Fully accessible from any Mobile device
- Flexible buying options:
  - o Shop Catalogs/Punchouts w/potential for State specific pricing
  - o Supplier or State managed catalog/pricing updates with Approval processes
  - o Obtain Quotes with simple comparison and award features
  - o Support for Re-Seller and Distributor configurations
  - o Comprehensive attachment and Excel integration capabilities
  - o Approval rules/routing, Chart of Accounts capture and PCard use
  - o Support for both NIGP and UNSPSC Commodity Codes
  - o Electronic order submission as email or cXML
  - o Buying Entities may include their Contracts in the system using access restrictions
- Proactive email notifications throughout
- Integration capabilities to State or Supplier systems
- Public search shows Portfolios and Catalog Items (without pricing)
- Optional features set at the Buying Entity level for maximum flexibility
- Dashboards and robust reporting for Buyers and Suppliers
- Account management
  - o Supplier accounts designed to be self-service for user management and Catalogs maintenance
  - o Administration of Supplier and Buying Entity accounts can be delegated or managed by RFxPremier

5 of 5 Suppliers have responded with Quotes

Supplier	Valid until	Estimated Delivery	Quote
Insight Public Sector, Inc.	10/20/23	10/20/23	\$17,840.00
Unisys Corporation	10/20/23	10/20/23	\$18,345.00
Carahsoft	10/20/23	10/20/23	\$18,000.00
Deloitte Consulting	10/20/23	10/20/23	\$19,934.00
SHI International Corp.	10/20/23	10/20/23	\$32,568.00

### **Benefit to Suppliers**

- Consistent way to sell across all participating buying entities
- Reduce number of catalogs/punchouts in State systems
- Simplifies Quoting and Buying for everyone
- Potential to increase Sales through more participation/use
  - All Contracts available & promoted
  - Quicker, easier to be ready for selling
  - Exposure to more States and Buying Entities
- Standardizes ordering process... *including email or cXML delivery*
- Dashboards and robust reporting across all Portfolios and Buying Entities
- Mobile device accessible... *do business from anywhere*
- Self-service Administration ... *manage your users, catalogs and company information*
- No cost for participation, training, support

### **Supplier Participation**

Suppliers will be able to participate in the eMarketPlace in three (3) ways:

- **Quoting**: Suppliers will be able to respond to Quote Requests from Buyers.
- **Hosted catalogs**: Suppliers will be able to load and maintain a product catalog directly.
- **Punchout catalogs**: Suppliers will be able to provide punchout access to their own catalog system, where Buyers will select items and return carts either to the eMarketPlace or their own eProcurement system.
